

Quick Start

Installing ScreenDoors 2000

1. Double-Click on the file labeled ScreenDoorsInstall.exe.
2. Follow the instructions as they are presented on the screen. Please refer to the ScreenDoors README.txt for more installation details, if needed.
3. Launch the software.

Registering/ Activating

By default all copies of DiscoverScreen give you a 30 day evaluation period.

1. To Activate click on the button labeled "Activate Now".
2. You will be prompted to enter the **Product Code** this is a 16 Digit Code In the upper right corner of the case.
3. If there is no internet connection, follow this screen.

Deactivating

Deactivation lets you use the same Product Code when you re-install. To Deactivate:

1. Load ScreenDoors.
2. Click on the menu item labeled "Activation".
3. Select Deactivate.
4. You may now use the same Product Code on a different machine or installation.
